LLC Annual Reports: The 2026 Survival Guide

Miss your annual report and many states dissolve your LLC or fine you hundreds. This guide shows how the system works and how to stay safe in any state. Always verify with your Secretary of State — rules change.

- **1. Know YOUR deadline**
  Most states tie it to your formation anniversary month — but not all. Check your state's SOS site.
- **2. California: $20 every 2 years**
  Due in your anniversary month, biennially. Easy to forget — set a reminder.
- **3. New York: biennial statement**
  Every two years in your formation month, $9. Cheap, but miss it and you're not in good standing.
- **4. Texas: franchise tax, May 15**
  Even $0-tax LLCs must file. No-revenue is not no-filing.
- **5. Florida: Jan 1 – May 1**
  Miss May 1 and it's a $400 late fee. Mark it now.
- **6. Delaware: $300 by June 1**
  Flat tax, no exceptions, steep penalties.
- **7. Oregon: anniversary month**
  $100 each year. Our home state — don't learn the hard way.
- **8. Keep your registered agent**
  If the agent resigns and you miss the notice, filings bounce.
- **9. Update addresses**
  SOS notices go to your registered address. Moved? Update it.
- **10. Calendar it twice**
  One reminder 60 days out, one 14 days out. Future you says thanks.
- **11. Save confirmations**
  Screenshot every filing confirmation. States lose records; you shouldn't.
- **12. Dissolved by accident?**
  Most states allow reinstatement — but fees multiply fast. Don't wait.
